WOOD PLASTIC COMPOSITE (WPC)

Description:

WPC (Wood Plastic Composite) is an eco-friendly material made from plastics and wood particles, requiring no staining or painting for easy installation. With properties similar to traditional wood but superior durability, WPC outlasts conventional materials. It is waterproof, insect-proof, and fire-resistant, ensuring long-lasting performance and safety. Additionally, WPC is odorless and pollution-free, creating a healthier environment.

PRODUCT DETAIL

Hassle-Free Installation: Enjoy a convenient installation process with seamless splicing that delivers a beautiful, cohesive look for your walls.Eco-Friendly Materials: Our panels are made from

E0-grade materials, ensuring they are paint-free, environmentally friendly, and completely formaldehyde-free, promoting a healthier living space.

Customizable Options: Choose from a wide range of sizes and shapes, allowing for adaptable customization to meet your specific needs.

Diverse Styles and Colors: With an extensive selection of styles and colors available, you can easily design your ideal home that reflects your personal taste.

Safety First: Our WPC wall panels are B1 class fire-rated, providing excellent fire and flame retardant properties for peace of mind.

Specifications

Dimensions	160*24mm,160*22mm,155*18mm,159*26mm or Customized

Details

Surface treatment	High temperature laminating
Product material	Plastics and wood particle
Packing explanation	Pack to order
Billing unit	m
Sound insulation index	30(dB)
Colour	Teak, Redwood, Coffee, Light Grey, or Customized
Characteristic	Fireproof,Waterproof and Formaldehyde Free

Standards & Certification

Formaldehyde Release Rating	E0
Fireproof	B1
Certification	ISO,CE,FSC

Outdoor WPC

| Name	Outdoor WPC
Length	2.9/3m or customized
Fireproof	B1
Formaldehyde Release Rating	E0
Surface	Sanding & embossing
Material	Wood powder 60% + PE 30%
Application	Commercial space,hotel,home garden and office and so on
